

## CUSTOMER SELF-EVALUATION CHECK-LIST

### Eligibility Criteria

To determine eligibility prior to submitting Advanced Meter Opt-Out Form, please check/answer the below questions. If service location does not meet eligibility criteria indicated below, customer is unable to qualify for the opt-out program.

- Single –Family Residential Service
  - Is your service rated for 200 amps or less? If not, service is ineligible.
  - Has your account been in good standing for the last 24 months? Not disconnected for non-payment.
  - Is your meter readily accessible at all times and unobstructed? If you received an access or dangerous conditions letter from KPUD, you do not qualify.
  - Is this a residential service that includes an additional separate meter? Perhaps for a garage, shed, shop, or well house on the premise with the primary residential account.

### Ineligible Criteria

If service location meets any of the criteria indicated below, customer is ineligible for opt-out program.

- Multi- unit residential service such as a duplex, triplex or apartment building
- Residential service from a new construction
- Residential service has CT's as part of the metering equipment
- Residential service with peak demand measuring more than 25kW during any billing cycle
- Any Commercial Services (small, medium, large)
- Any Irrigation or Industrial Service
- Net Meter or Aggregated Metering Services
- Temporary Services
- Location enrolled in a Landlord Agreement
- Vacation homes or any location with part-time occupancy

**\*Customers who choose to opt-out will forego the opportunity to receive benefits through AMI metering such as, high usage notifications, data/outage alerts, and real-time meter data. They will receive the same TOU meter, but without the radio frequency transmitter. \***
