

Pay your bill or turn in a meter read here.

This text appears in red and only when outages are scheduled.

Check out local Ruralite pages from years past, or the current issue.

New electric or water/wastewater service information can be found under the Services tab.

Any current job openings will be listed under the Career Opportunities tab.

KPUD Website is User Friendly

Klickitat PUD invites you to visit our new website at www.klickitatpud.com to see what is new and improved.

Have you ever wanted power outage information at your fingertips? Or have you sought information about your rates or wondered what kind of rebates are available?

The new website provides a user-friendly platform, easy navigation and provides you with access to the information you really need or want.

The process for paying your PUD bills online and submitting meter reads has not changed, so you won't have to learn a new process for those functions.

The addition of a community calendar allows us to post the schedule of KPUD commission meetings and other important KPUD events. Check the calendar to find out when representatives from KPUD will be in your community or to find the date of the next commission meeting.

This same section includes a collection of photos from across Klickitat County.

Be sure to check out the Conservation section for the latest rebate information, tips for saving energy, net metering and more. Click on this tab to access information KPUD customers have asked to learn about.

The rate structure and cost for electrical and water/wastewater services is always a top request of customers. Click the Rates & Policies tab to get current rates and PUD Policies.

You also can access a mobile version of the website with your smart phone, which includes outage information, news and contact information.

If you have any comments or questions regarding our new website, please call our offices in Goldendale or White Salmon. This website was designed with the information customers want most, and we appreciate your feedback! ■
