

ELECTRICAL SAFETY

While Working From Home

Do you have a **home office** or **work from home**? Follow these **electrical safety tips** to keep you and your home safe from electrical hazards.

1 Avoid **overloading outlets**.

2 **Unplug appliances** when not in use to save energy and minimize the risk of shock and fire.

3 **Regularly inspect** electrical cords and extension cords for damage.

4 Extension cords should only be used on a **temporary basis**.

5 Never plug a space heater or fan into an **extension cord** or **power strip**.

6 Never run cords under **rugs / carpets, doors, or windows**.

7 **Plug in smartly**. Make sure cords do not become tripping hazards.

8 Keep papers and other potential combustibles at least **three feet away** from space heaters and other heat sources.

9 Make sure you use **proper wattage** for lamps / lighting.

10 Make sure your home has **smoke alarms**. Test them monthly, change batteries yearly, and replace the unit every 10 years.

Wherever you work, it's always important to be safe.
