

KLICKITAT PUD

REBATE UPDATE

Customer Generation Net Metering

Net Metering is available for our Residential and Commercial customers along with meter aggregation opportunities. Contact KPUD in conjunction to working with potential installers with questions and to confirm eligibility.

We currently serve 203 meters with customer generation dating back to 2000 . The current amount of subscribed generation is 1.423 MW and growing.

A completed application and agreement must be approved prior to installation. All forms and program information is available at:

www.klickitatpud.com/conservation/netmetering.aspx
