Public Utility District No. 1 of Klickitat County

SITE PLAN

Draw a plan of your site including building, septic, drain field, sewer, cable TV, gas, driveway, other future structures, property lines, proposed power line route and nearest transformer/power line if available.

Also, identify at least two bordering roads and any other foreign areas or properties belonging to others.

A large, empty grid of small squares, intended for drawing a site plan. The grid is approximately 30 units wide and 40 units high.
