Klickitat PUD Residential new construction Energy Star manufactured home program Participation Requirements and Instructions

Thank you for your interest in our Residential Energy Efficiency Program. We are pleased that we have the opportunity to offer this service to you through our association with Bonneville Power. Because of this collaboration of funds the information we collect from you is required to help determine your eligibility and may also be used to evaluate and audit data about energy use and the conservation program as a whole. With that, your information may be requested for certain site visits to evaluate the performance of the program and is to be kept available for three years. No personal information will be issued to the public.

REBATE FOR QUALIFYING HOMES \$1,000

Program Requirements

This rebate is available for manufactured homes that must be electrically heated, new, installation completed with occupancy permit, and be designed, constructed and certified by the Northwest Energy Efficient Manufactured (NEEM) homes program as ENERGY STAR.

Home must be placed within Klickitat PUD service territory and have an active utility account.

The seller of the new manufactured home should be able to supply more information of the efficiency of the home and also supply the required NEEM ENERGY STAR certificate of compliance either version 1.1 or 2.0. However, you may also contact Northwest Energy Works at (888) 370-3277, ext. 102 for additional information.

Rebate Application Process

Please contact our Energy Services Specialist to start the process and complete the following:

1. Read the program participation requirements and instructions.
2. Complete the residential new manufactured home rebate application.
3. Provide a copy of the NEEM Energy Star certification of compliance.
